-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Allowable Subject Matter

1. Claims 2, 4, 6, 8-11 and 15-53 allowed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 7 rejected under 35 U.S.C. 102(e) as being anticipated by Kimura et al.
(6,632,696)

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

Regarding Claim 7 Kimura et al. disclose a manufacturing method of active matrix substrate plate and manufacturing method therefor where in Figs. 53A-53D and in Fig 182 an active matrix substrate having a transparent dielectric plate, thin film transistors Tf arranged on the plate and pixel electrodes 41 arranged on the plate, gate electrodes 12 of TFTs Tf having a

first multilevel structure 10A and 10B, scan lines 11 connected to the corresponding gate electrodes and having a first multilevel conductive structure. In Figs. 53A-53B, this multilevel conductive structure is shown to be a two layers TiN and Al-based conductive structure. However, in paragraphs 278, 300, 317 and 335, the required three layer laminate conductive structure is disclosed. Paragraph 278 specifically points out that the three layer multilevel conductive structure has a layer of Ti in the bottom, Al in the middle and TiN at top. Furthermore, the same paragraphs and Claim 11 disclose that the nitrogen concentration of the TiN film to be at least 25%

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fazli Erdem whose telephone number is (571) 272-1914. The examiner can normally be reached on M - F 8:00 - 5:00.
